

RAKSHITA PATIL

Java Full Stack Developer | Bangalore KA 587301

+91 8971122438 | rakshitapatil06@gmail.com |

SUMMARY

Java Backend Developer with **2** years of experience designing secure, scalable **RESTful APIs** using **Spring Boot, MVC and Data JPA**. Proficient in building end-to-end systems with a focus on clean code, and **exception handling**, alongside frontend proficiency in **React**. Implemented unit tests for the Shipment Management module using JUnit and Mockito.

EDUCATION

KLE Technological University, Hubli – BE, Electronics and Communications Engineering
2019 – 2023 | GPA: 8.5/10

PROFESSIONAL EXPERIENCE

Associate Software Engineer

Tech Mahindra | June 2024 – Dec 2025

Software Engineer

Tech Mahindra | Dec 2025 - Present

Project: UPS Movin – Java Full Stack Developer

- Developed and maintained RESTful APIs using Spring Boot for shipment creation, update, delete and retrieve, improving backend efficiency.
- Designed and implemented React.js components for responsive and user-friendly shipment management, enhancing user experience.
- Wrote unit tests using JUnit and Mockito, improving backend service reliability by ~15% through early bug detection.
- Improved API error handling and validation, reducing runtime issues and increasing response accuracy by ~10%.
- Collaborated using Git version control and participated in code reviews, ensuring cleaner commits and better performance optimization.
- Actively participated in daily Scrum meetings, Sprint planning, and Agile ceremonies to ensure timely delivery and cross-team coordination.

PERSONAL PROJECTS

- ❖ **Doctors' database management system(DDMS) – Java | Spring Boot | Rest Api**
A Doctor Database Management System to securely store, manage, and access doctors' profiles
- ❖ **SpaceBook(SB) – React | React Router**
A simple Facebook-style React app with login, signup pages, and navigation using React Router.
- ❖ **Hotel Management System (Academics) – C++ | Oops**
A Hotel Management System built for managing room bookings, customer details, billing, and check-in/check-out processes.
- ❖ **Investigation of Crypto algorithms for stability assessment - Python (Capstone)**
Analyzed the performance and security of cryptographic algorithms like AES, DES, SHA, and RSA using metrics such as avalanche effect, correlation coefficient, throughput, encryption/decryption time.

COURSES AND CERTIFICATIONS

- **Java Full stack :** Java, J2EE, SpringBoot, React, HTML, CSS, SQL
- **Udemy:** Web Development, Python, SQL, Data Structures, Agile and Scrum, Shell Scripting
- **Cisco:** CCNA (networking)
- **Coursera:** Speak english professionally

Technical SKILLS

- **Languages:** Java, C programming, C++, Python
- **Backend:** Spring Core, Spring JDBC, Spring JPA, Spring MVC, Spring Boot, REST APIs.
- **Frontend:** React.js, HTML5, CSS3, JavaScript (ES6+)
- **Database:** MySQL
- **Tools & Version Control:** Git, GitHub, Maven, Postman, MySql Workbench
- **Testing:** JUnit, Mockito
- **Soft skills:** Problem-solving, Logical Reasoning, Analytical Thinking, Critical Thinking

HOBBIES

Dance, Chess, Badminton, Riding

LANGUAGES

Kannada (Fluent), English (Fluent), Hindi (Moderate), Telugu (Basic Understanding)
